STATEMENT OF COMMITTEE.

This is the first Alumni Catalogue published by the Union Alumni Association of Howard University. It contains a list of the Alumni of the several departments of the University from 1870 to 1896 inclusive, the present occupation and location of each Alumni: also a list of the incorporators, trustees, officers, professors, and teachers who have, from time to time, served the University.

In preparing materials for this catalogue the committee in charge soon found that errors would of necessity occur; but this fact did not deter them from attempting to make the best possible compilation under the circumstances.

In order that the next issue may be more accurate, the Association will deem it an act of kindness on the part of any Alumnus to inform the secretary of any error coming under his personal observation. It would also request each Alumnus, receiving a copy of this catalogue, to fill out the blank in the rear and forward it to the secretary of the Association.
